**Academic study**

**2023-12 -2025**

**Master of Risk and Disaster Management at Damascus University**

This Master's program covers a range of subjects related to natural disasters, including hydrology, earthquakes, and the financial risks associated with them. Additionally, it explores the latest technology and programs used to predict disasters, psychological support, first aid, and team management in disaster recovery. This program is primarily focused on the humanistic aspects of disaster management and is quite engaging to study.

Among the materials

Risk Assessment Basics - International Humanitarian Law - Disaster Preparedness - Geo-Informatics (RS - GPS - GIS)

2018-10 2023 -8

## **Damascus University, Faculty of Economics, Specialization in Accounting**

My favorite subjects in college:

**Principles of Auditing Review 1:** It deals with the logical approach to auditing, its professional literature, the legal responsibilities resulting from it, and the American and international professional standards regulating it, especially in the field of scientific and practical qualification, due diligence, independence, internal control, audit reports, audit committees and their tasks, and internal auditing.

**Cost Accounting (1)** This course includes the theoretical framework of cost accounting and cost concepts for measurement, control, cost classification, and reporting. It also covers cost charges, procedures for measuring and controlling the cost of materials, wages, and indirect industrial expenses, and the use of the activities system and the costing system of production orders and production stages.

**Analysis of financial statements** This course aims to introduce financial analysis, its importance and methods, how to analyze the financial statements of different establishments (commercial, industrial, agricultural, financial), as well as the preparation of financial and cash flow statements, how to account for and calculate the various financial ratios.

# **Humanitarian work experiences**

## **1- 2019 to 2025 Arab Red Crescent**

Since 2019, I have been volunteering with the Syrian Arab Red Crescent in the Risk and Remnants of War Management Department.

And I moved to several departments, including finance, relief, and risk management. And Im department.

## **2- 2023-1 Addameer Charitable Society**

A member of the Addameer Charitable Society since the beginning of 2020, which is a humanitarian organization within my town.

## **3- 2024-8 to 2024-9 European Institute for Development and Training**

Volunteer in initiatives

# **Work Experience**

## **2019/2023 Qasim Ali Trading Establishment**

In 2019 so far, I have been working part-time for Qasim Ali Trading Establishment, an organization that deals with business contracts with other companies. They are involved in various tasks such as building, cladding, and securing workers, drivers, and craftsmen. In my role, I handle accounting operations for the entire institution, including managing salaries, expenses, revenues, and administrative matters. I also organize workers' schedules and related paperwork and deal with government taxes and other related tasks. I work from home in the evenings.

## **2023-1/ 2025-2 Absolute Positive Syrians Center for Vocational**

This vocational training center specializes in courses such as Accounting, Financial Accounting, and Computer Leadership. I have trained over 200 students of different ages, ranging from 17 to 45 years old. I worked in the evenings, choosing shifts that fit my schedule. I have trained students in the Al-Amin program, financial accounting, and various Office programs.

## **2023-1 / 2024-9 Damascus Petrochemical Refinery**

The Damascus Refinery is a unique institution that specializes in refining oils. My job responsibilities include enhancing the accounting system by adding, deleting, or modifying paper procedures within the accounting program. Additionally, I am responsible for monitoring financial statements and creating them when necessary.

## **2020-1 to 2020-2 Central Bureau of Statistics from**

We worked on a 2-month contract for construction statistics within the Damascus countryside in cooperation with the Faculty of Economics and the Council of Ministers
